# NOTICE OF RATE ADJUSTMENT

This notice is to inform you of a rate adjustment that will take place on January 1, 2021. On November 16, 2016, North Coast County Water District (NCCWD) Board of Directors approved a series of water rate adjustments over a period covering January 1, 2017 through July 1, 2020 with adoption of NCCWD Resolution No. 1081. The Resolution established water rate adjustments and also provided for a pass-through of the wholesale water rates that are different from the wholesale water rates projected in 2016. On June 17, 2020 the NCCWD Board of Directors deferred the planned July 1, 2020 rate adjustment due to the financial impacts of COVID-19. For all *water usage charges*, the increases that will go into effect on January 1, 2021 will be decreased by one dollar forty cents (\$1.40) per unit from the rates originally adopted by NCCWD because the wholesale water rate is less than projected. The tables below show bi-monthly supply and distribution charges, fire protection service charges, and water usage charges for: (1) the charges that are currently in place; (2) the charges that were adopted by NCCWD in 2016, shaded blue; and (3) the charges that will go into effect on January 1, 2021, shaded green. For more information about this rate adjustment call (650) 355-3462.
