

## ENERGY EFFICIENCY

- Solar panel canopies over the staff parking area
- LED motion-activated lights throughout the building
- Meets new energy codes expected to reduce energy consumption on-site

## WATER EFFICIENCY

- Recycled water is used for irrigation and toilet flushing in building
  - Landscaping that is coastal compatible and drought-tolerant
- Site improvements include a new recycled water drive-through for the residential recycled water filling station (Opening 2026)

## ENVIRONMENT

- Wash rack for District vehicles plumbed to the sanitary sewer to prevent runoff into stormwater drains
  - Five electric vehicle (EV) charging stations for the District's electric vehicles

## SAFETY

- Headquarters will operate as an Emergency Operations Center in the event of an emergency
  - Built with Structural and Seismic Safety in mind
  - Built to resist and/or minimize damage caused by tsunami flooding in the coastal zone
    - Emergency responder radio coverage
- ADA-compliant walkways, doorways, offices, restrooms, multipurpose room, and elevator

## COMMUNITY

- Expanded public meeting space for meetings, trainings, and classes
  - New public entrance and expanded lobby space
- New angled parking spaces and additional parking on Francisco Blvd.
