

Notice of Rate Adjustment

This notice is to inform you of a rate adjustment that will take place on July 1, 2018. On November 16, 2016, North Coast County Water District (NCCWD) Board of Directors approved a series of water rate adjustments over a period covering January 1, 2017 through July 1, 2020. NCCWD Resolution No. 1081, adopted on November 16, 2016, establishes future water rate adjustments and also provides for a pass-through of the wholesale water rate increases and reductions that are different from the wholesale water rates projected at the time the Resolution was adopted. For the water rate increase that will go into effect on July 1, 2018, the rates adopted by NCCWD will be decreased by sixty-six cents (\$0.66) per unit because the wholesale water rate is less than projected.

The tables below show the following bi-monthly supply and distribution charges, fire protection service charges and water usage charges: (1) the charges that are currently in place; (2) the charges that were adopted by NCCWD by Resolution No. 1081; and (3) the charges that will go into effect on July 1, 2018. For more information about water rate adjustment, such as Resolution No. 1081 and the 2016 Water Rate Study, please visit the NCCWD website at www.nccwd.com or contact the NCCWD office at (650) 355-3462.

Supply and Distribution Charges
