SHEILA TANK REPLACEMENT PROJECT **TANK DRAINING**

Dear Residents,

Please be advised that the North Coast County Water District's contractor, Anderson Pacific Engineering, will be performing tank maintenance starting this week.

As part of the tank testing procedures, we have filled the water tank to verify its integrity and leak-tightness. Now that the tests are complete, it is necessary to remove the water from the tank. Capturing the water for reuse in irrigation is not feasible, so the water will be discharged into the city's storm drain system. We estimate the tank draining activities will occur between 3/27/25 and 4/11/25 during the hours of 7 a.m. to 5 p.m.

Residents living downhill from the Sheila Tank Site, particularly on Alvarado Avenue and Duran Court, will notice water flowing along the gutters on the street during the release. No action is required on your part.

Should you have any questions, the following contacts are available to answer questions:

- Ryan Mullen, Sr. Project Manager with Anderson Pacific Construction Engineering, Inc. at (408) 316-2099
- Gavin Lee, Construction Manager with Brown and Caldwell at (207) 357-6676.
- Adrienne Carr, General Manager of North Coast County Water District (650) 355-3462 | acarr@nccwd.com

Thank you in advance for your patience and understanding.

Very best regards,

A handwritten signature in blue ink that reads "Adrienne Carr". The signature is fluid and cursive.

Adrienne Carr
